

CORENTIN COUTRET ROZET

Terraform & FinOps Consultant — GCP / AWS · DevOps (side projects)

Barcelona, Spain (Remote Europe / CET) | +34 640 87 76 02 | corentin.crzt@gmail.com | github.com/sheiiva | linkedin.com/in/corentin-coutret-rozet

PROFESSIONAL SUMMARY

DevOps / Cloud engineer (~3 years) offering side consulting in Terraform and FinOps on GCP and AWS. Helps teams move from manual cloud ops to reproducible IaC, clearer environments/CI, and cost-aware operations. Works by deliverables and milestones (async-first, ~10–15 h/week). Not available for energy-flexibility / demand-response style projects (employer conflict). Languages: FR (native), EN/ES (fluent).

CONSULTING SERVICES (ENTRY PRICING)

Cost & IaC Audit (1–2 weeks) — cloud + Terraform readiness, FinOps findings, 30/60/90 roadmap · from ~1.200–1.500 €

Terraform Sprint (2–4 weeks) — modular IaC, environments, CI basics, handoff · from ~2.500–3.500 €

Retainer (10–15 h/month, async) — reviews and small improvements · from ~900–1.100 €/month

CORE COMPETENCIES & TECHNICAL SKILLS

IaC & FinOps: Terraform (modular design), Ansible, CloudFormation; cloud cost / billing awareness

Cloud & orchestration: GCP (GKE, serverless/containers), AWS (EKS, EC2), Kubernetes, Docker

CI/CD & ops: Jenkins, GitHub Actions; Bash, Python; Linux ops; monitoring (GCP Operations Suite, CloudWatch)

Collaboration: Git, GitHub, Jira, Confluence · mentoring / technical referent

PROFESSIONAL EXPERIENCE

Cloud DevOps Engineer — Bamboo Energy, Barcelona, Spain

May 2025 – Present

- Design and operate GCP infrastructure with Terraform (reliability, automation, cost-aware platform work).
- Standardize infra/code conventions across engineering teams consuming platform resources.
- Improve CI/CD and environments; act as technical referent for infra reviews and handoffs.

Software Engineer (DevOps) — Smadex, Barcelona, Spain

April 2023 – April 2025

- Technical point of contact for multicloud production support (AWS, GCP, Kubernetes).
- Automated provisioning/scaling with Terraform and CloudFormation; reduced operational toil.
- Mentored teammates on multicloud infrastructure and collaborated on operational issues.

ADDITIONAL EXPERIENCE

IT Teacher (Head Teacher, 2nd & 3rd year) — Epitech, Spain | Sept 2022 – Mar 2023

IT & Maths Teacher / Exam Supervisor & Grader — Epitech, Spain | Sept 2020 – Jul 2021

Google Developer Student Club Lead — DSC Google, Barcelona | Aug 2020 – Jun 2021

AI Developer Intern (R&D computer vision) — Alcom Technologies, Bordeaux | Jul – Dec 2019

EDUCATION

Bachelor + Master — IT Expert, Epitech, Barcelona (2018 – 2023)

Exchange — software track, Keimyung University, Daegu, South Korea (2021 – 2022)

Baccalauréat — Engineering Science (Computer Science option), Fénelon, La Rochelle (2015 – 2018)
